

Chronic Care Management

TAKE CONTROL OF YOUR HEALTH

The Chronic Care Management (CCM) Program is a Medicare benefit with which you get access to a Care Team, in addition to your doctor.

- Available to patients with 2 or more chronic conditions (expected to last 12 months or longer), such as hypertension, COPD (chronic obstructive pulmonary disorder), diabetes, and/or CHF (congestive heart failure).
- Improved communication among all of your healthcare providers.
- Monthly contact with your Care Team to see if you have any questions regarding medications, communicating changes in your healthcare and scheduling appointments.
- Decreased burden for family members involved in your healthcare.

After speaking with your doctor regarding your eligibility, a signed consent is required to start services and may be canceled at any time.

DEDICATED CARE TEAM

MCHS has a dedicated Care Team available to assist with the following:

- Ensure that ongoing attention is paid to your medical care needs between doctor visits.
- Establish new care with medical specialists and community resources.
- Coordinate your care and health records.
- Inform you when it's time to receive preventive services and immunizations.
- Help you understand your medications and conditions.
- Ensure your doctors and family have easy access to your Care Plan.
- Work with your doctor to create a care plan that includes personalized health goals for you.
- 24-Hour nurse advice hotline to answer any other questions or concerns.

CARE TEAM:

Lisa Iverson, RN
 Maria Garcia, Nurse Aid
 Emily Sexton, RN

User-Friendly Healthcare

FROM THE SAFETY OF YOUR HOME

The lack of reliable access to healthcare for many homebound and rural patients is increasing at an alarming pace. This is exacerbated by the current COVID-19 situation. Whether physical needs, risk prevention, or geographical distance prevent patients from visiting their physicians, it's imperative that they get the healthcare they need in a way that both empowers and protects them. MyVitalz is designed to do exactly that.

Benefits of using MyVitalz

- Patients can monitor their own vital signs from home
- Patients can use consistently with ease
- Monitoring devices are easy to use
- No internet connection required

What will the program cost?

The majority of the Chronic Care Management service is covered by Medicare once your deductible is met. But depending on your plan, you may be responsible for a portion (up to 20%, or about \$10 per month). If you have supplemental coverage, your portion may be reduced or at no cost.
